SAVED HER LIFE.

RIDGE McLEOD CO., Ga.
Dear Sir: I have taken
the liberty of your Female Regulator for failing
to whom and other diseases combined, of sixteen
years standing, and I really believe I am cured
completely; for which please accept my heartfelt thanks
and most profound gratitude. I know your medico
cured my life, so you see, I cannot speak too
highly in its favor. I have recommended it to
several of my friends who are suffering as I was.

Yours very respectfully,
MRS. W. E. STEBBINS.

TESTED A QUARTER CENTURY.

It stands Unravelled.

J. L. BRADFIELD, ATLANTA, GA.
Dear Sir: I take
pleasure in stating that I have used, for the last
twenty years, the medicine you are now putting
out, known as Dr. Lindfield's Female Regulator
and consider it the best combination ever gotten
for the diseases for which it is recommended.
With kindest regards, I am, respectfully,

W. B. FERRELL, M. D.

ATLANTA, GA.

J. J. BRAFIELD—Dear Sir: Some fifteen years
ago I calculated the recipe of Female Regulator,
and then (as well as now) pronounced
it to be the most scientific and skillful combination
of the really reliable remedial vegetable
agents known to science, to act directly on the
womb and uterine organs, and the organs and
parts sympathizing directly with these; and
therefore providing a specific remedy for all the
diseases of the womb and of the adjacent organs and
parts.

Yours truly,
JESSE BORING, M. D., D. D.

THE CHAT ABOUT

WITH THE PRESS AND PEOPLE OF GEORGIA.

A Negro Attacked in Fayette County. But Is It Fractured?—A Mysterious Murder Near Bainbridge.—Expedition of a Thousand Cowboys.—Murder of an Old Negro, Etc.

The Gainesville Press says that on last Friday Barnes, Madden & Evans received a registered letter, mailed at Coosa, Georgia, in Union county, by one of their best drivers, which ought to have contained a considerable sum of money, but instead only 25 cents was within the package. They soon found that the letter had been tampered with; the figures showing the amount that had been enclosed were scratched out and others substituted in their stead. The master will be thoroughly investigated and the one who got the money no doubt will be caught up with.

The Piedmont Press is one of the most readable papers in Georgia. Mr. Smith knows how to give a new turn to whatever he prints.

Tom Bell and Play Williams, brothers-in-law, living in the upper part of Clayton county, have been at odds for some time. Tuesday night Tom Bell broke into the house of Williams and attempted to kill him, while Williams was in bed. Bell failed to fire, whereon Bell began to hit Williams over the head with the butt end of his pistol, and left him badly wounded.

In Schley county, Mr. J. M. Duncan, white polling cotton from beneath the breast of his right hand was caught by the saw, pulling his right arm in and breaking it so severely that amputation was restored, he was questioned as to the cause of his rash act, and gave as a reason for his desire to die, that he was in debt, and was not able to get out.

Eastern Star. Last Monday morning the body of a lame corpus of E. D. Dodge via L. T. Rawlins' sheriff of Dodge county, was held before Ordinary Room. Our poor Dodge stands charged, is that of assault with intent to murder—in cutting Mr. John O. McRae all the way to the bone. Dodge is said to have the backing of General Manager Fish, and the object of the movement is claimed to be the breaking up of the contemplated agent business. The real situation, however, is reported the probability of this explanation being a frank one. The East Tennessee, Virginia and Georgia is compelling all passenger bus as that can vent to go via Memphis.

Mr. Wm. Mark, Sr., and his family, the corpse was carried from the ordinary room to the mortuary, and getting the long haul from all points on its line. The process which it has adopted is simple, but effective.

A passenger who wishes to travel to Knoxville via Jellico or other junction point must pay local rates to that point, and then a connecting fare to the terminus, and so on the regular through rate.

The Queen and Crescent in Cincinnati, the L. & N. to Atlanta, and the iron Mountain are all more or less involved in the assault made and the resistance offered to the movement.

It operates, and getting the long haul from all points on its line. The process which it has adopted is simple, but effective.

The Conference at Centerville.

CENTREVILLE, Ga., November 22.—[Special.]—The conference was opened at 8 a.m. yesterday with prayer by the Rev. Mr. Johnson. The president announced the regular standing committee. The report by the pastors show general prosperity throughout the district. A national fund offering was made, and the same was referred to the committee on ends and means. Mr. J. M. Barton, of Atlanta, who has been sick here since July, was on the conference floor.

Fairfield for Athens.

ATHENS, Ga., November 22.—[Special.]—The remains of Mrs. James Turner arrived on the 5 p.m. train, yesterday, from Atlanta, accompanied by the bereaved husband and also by his daughter, Mrs. E. W. Mark, Sr., and her family. The corpse was carried from the ordinary room to the mortuary, and getting the long haul from all points on its line.

The process which it has adopted is simple, but effective.

The Death of Rev. Wm. Griffin.

JEROMEVILLE, Ga., November 22.—[Special.]—Rev. Wm. Griffin, the ordinary of Twiggs county, died at his home in this place at 2:30 Friday morning.

He suffered many days of typhoid fever, and his death was not unexpected. The ordinary's office was made vacant last November by the death of Dr. W. C. Smith, and was filled by Dr. J. H. Holton, in January by an overwhelming majority to fill his place. He would have been sixty in January.

The State vs. Doyal.

GRIFFIN, Ga., November 22.—[Special.]—The state vs. Doyal will be the first case called Monday morning at the adjourned term of our superior court. It will be remembered that Doyal shot himself in the head in the fall of 1878, and was brought up for trial in five places, and is now lying in a very precarious condition at the residence of his father, Hon. Phil. Doyal, a native of this state, and a man of high character. It is said that he is a nephew of Hon. J. N. Holt, a prominent lawyer, and one of the leading citizens of this state.

The Lincoln News recalls the destruction of the town of McCormick. There was very little insurance on any of the destroyed property. P. L. Shirley & Co. were insured, although not to the amount of their loss, which was in all \$3,000. Messrs. P. L. and M. L. B. Shirley are two young men that will not drown. They will surely rise above this heavy misfortune, and we do not soon build another fine business over the ashes of their lost.

There will be many in Lincoln to regret that Mr. A. A. Stuart, for many years business manager of the Central hotel, was one of the greatest losers.

The mysterious killing which occurred on the plantation of Mrs. G. J. Donaldson six miles south of Bainbridge on Tuesday evening before last, was investigated by the coroner and jury on Wednesday evening last and resulted in the finding of substantially the following verdict: "We, the jury, find that the deceased, Jacob Hines, came to his death by three pistol shot wounds in the hands of J. W. Lewis, and in our opinion said Lewis is guilty of wilful murder."

Albany News. There are evidently some very bad roads in the interior of the country. There have been incendiary fires and attempts at incendiarism a number of places; and now the reports are of a deliberate attempt to wreck a passenger train on the Southwestern railroad, in the city of Americus. We publish it as a matter of the watchfulness of our people. Tuesday night the 10 o'clock passenger train from Macon was wrecked on the main line between Troy and Lyons streets. The mail was placed end up in the middle of the track in such a manner to throw the train off the track, and the engine ran over the mail and as the caw catcher struck it, it raised and carried it fully sixty feet. All of that distance the track and roadbed were torn up.

The engineer felt the unusual jerk, and reported the matter to the conductor, and an examination was made, revealing nothing in mystery, nor the slightest clue being found to it. What object the perpetrator could have had is not known. The mail was never recovered.

The mail had been assaulted with a view to injury. Had the train been thrown off the track, and the engine run over the mail, and a large sum in high grade and serious damage would have resulted. We hope the authorities will succeed in finding the culprits.

Mrs. G. J. Donaldson, clapped with Mr. G. J. Donaldson, Tuesday evening. They met at Barnesville on the evening and remained over night, the guests of Mrs. L. K. Rogers, and took up again Thursday morning for Atlanta, where they were married.

The coroner held an inquest over a negro girl on the Neely place, last Thursday, in Jefferson. She was shot the 19th day of August by one Bartow Beale. He has left the country.

On Tuesday evening last week Mr. T. M. Kilian barely escaped the loss of his right eye. He was splitting kindling wood, when a splinter flew into his eye, and he fell down, and was missing the house. The splinter was drawn out, and for several days Mr. Kilian suffered considerably.

The eye is still swollen, and the skin is thickened to a great extent.

What the South Wants.

From the Washington Post.

Notwithstanding the terrifying statement of Chairman Jones that no man farther north than Mr. Bayard will be permitted to take a hand in the next administration, there are abundant evidences in hand to show that the south is not disposed to assert or assume even the share to which she is fairly entitled by her vote in the patronage or direction of the government.

So far as we are advised the southern people will put in no presumptuous claims to recognition. They appear to feel that they have got a great deal in the election of a democratic president and in the political life of the nation, which entitles them to follow. Ourselves think that the results have been few and modest, much less than their deserts.

There are obvious reasons why they would like to have a southern man at the head of the state.

Colonel A. C. Terrell, who was confined in jail for a few days ago for contempt of court, was released on half Friday evening for the space of ten days. He was sick in jail, and was therefore released for a short while.

Governor Caldwell Coming to Maryland.

From the Baltimore American.

President-elect Cleveland will come to Maryland shortly as the guest of a noted pleasure club. He expects to spend a few days here quietly, and will not be "at home" to office-seekers and their friends. He will remain a short distance from the city. General Judson Scott, of the governor's staff, has been engaged for a few weeks past, and has collected information that the president-elect will soon join him. Grover Cleveland's mother was a Marylander, and his uncle, Mr. Hale, has a long time been known as a book dealer.

Congressman Blount.

From the Mason Evening News.

The Hon. James H. Blount will shortly return to Washington to be present at the convening of congress. Colonel Blount has a strong hold upon the confidence and esteem of the people of the sixth district he ever had, and they will continue to follow him with pride and regard in the faithful and efficient discharge of his congressional duties. The Hon. James H. Blount, who is a man, Colonel Blount will be called by the vote of the people of the entire state to the highest honors in his field, and a general election in the state of Georgia will see him elected to the Senate.

BRUNSWICK INDIGNANT.

The People Hold a Meeting and Denounce a Slenderous Report.

FRUNSWICK, Ga., November 22.—[Special.]—The good people of this city are universally enraged and indignant at the various malicious reports in the papers throughout the country published about the late fire news. These reports, it appears, are from a false statement sent to the Savannah Morning News by its Brunswick correspondent.

The "Globe" were reported in THE CONSTITUTION o Monday. There is nothing more and nothing less of it. There were no signs nor evidence of riot, and it is now concluded that the report was not material and gave way variously in the scenes. Nothing unusual occurred to alarm anyone. Many negroes were not to those who required it. "Hush—there for Blaine." "This is a false fire, Clevelander, but the other is true." The "Daily Free Press" in the town class of negroes, who had no fire except above than decency, but this might be expected under all the circumstances.

Brunswick Riflemen were on duty to protect property with special force of policemen. Outright and justly proud of a most orderly and respectful colored population. They have rung about them and held a public meeting last night to denounce the perpetrators. It is not even yet known that the fire was caused by the hands of the negroes. The black citizens will send a full and correct statement to the Savannah News, hoping to correct these strange reports.

Wrenn's Lively Work.

From the Cincinnati Commercial Gazette.

General Passenger Agent Wrenn, of the East Tennessee, Virginia and Georgia railway, who recently transferred his affections from the Western and Atlantic, is raising, literally, "H—l on the Walsh." He has ordered the tickets of the last named of all issues, "turned to the wall," that is taken off sale and given to the agent, with a half price in payment.

BUSINESS INTERESTS.

THE PRESIDENT-ELECT GUARANTEES THEIR SAFETY.

As far as a Democratic Administration can protect them a change will have no effect upon them—particular words from the next President of the United States.

BOSTON, November 22.—In the course of an interview with a representative of the Boston Globe to-day, President-elect Cleveland in speaking of the business and manufacturing enterprises of the country and the effect of the change in administration on those interests, said: "It goes without saying that the democratic party is made up of merchants, business and workingmen and everybody it certainly desires good times and realizes that all people must be prosperous to insure that result. We have 55,000,000 people, almost boundless resources, hundreds of the strongest financial institutions in the world, thousands of enterprising merchants, the most skillful manufacturers, and the most intelligent farmers and working men on the face of earth. Now, surely the country with these characteristics has every qualification for a solid and permanent prosperity. It will be my aim and the aim of all associated with me in the conduct of affairs at Washington to give the people of the United States a safe, economical and conservative government. The fact that so many business men and manufacturers and working men voted with the democratic party in this election shows that they were not afraid of a change in administration. The democratic party in its Chicago platform meant what it said and said what it meant, and will carry out the promises of that platform which relates to the business interests of the country. The most important thing is the restoration of confidence and a determination to forget partisan heat and excitement and to devote our lives to the things which tend to the substantial welfare of the country and all of its people. In this event every man should feel that he has a part to perform."

CALLING ON CLEVELAND.

GOVERNOR HENDRICKS WITH A DISTINGUISHED PARTY VISITS THE PRESIDENT-ELECT.

NEW YORK, November 22.—Hon. Thomas A. Hendricks, vice-president elect, left this city morning for Albany with a number of gentlemen of the democratic national committee accompanying him. Among them were Sensi vs. Gorman, Jones, Canden and Barnum, General Cary, of Ohio and Hon. B. S. Smalley. Governor Hendricks will call upon Governor Cleveland and return to the city late in the day. A large representation from Cleveland and Hendricks clubs, and of other democratic organizations, will be present in shaking hands across the bloody causeway. The hopes of increased love and peace, confidence and hope in the future of our country are high, and now forever one and inseparable. [Signed.] A. FARNHAR.

ATLANTA, NOVEMBER 23, 1884.

INDICATIONS for the south Atlantic states: partly cloudy weather and rain, east to south winds, slight rise in temperature, lower barometer.

A PURE MATTER OF BUSINESS.

We have a few words this morning that we want every citizen of Atlanta to read. They want every citizen of Atlanta to read. They are sober words, written in soberness and without passion or prejudice.

On the first Wednesday in December we will elect a mayor and council who will administer the affairs of the city for the next two years. Very much depends on this election. Atlanta has come to be a great city, before which a new era is opening. This election will settle whether that era will be glorious or otherwise. We have no interest in the matter, save the welfare of the brave young city we all love so well. And so the matter goes back to you at last. To the people, the citizen's ticket appeals for a dispensation verdict. There is no need of excitement or brass bands or hurrahs. We are about to put an important trust into new hands. Let us select the best men regardless of everything but their capacity, and let us do this quietly, and conscientiously, having in view only the good of Atlanta.

Under Democratic Rule.

The report of an interview with W. A. Pledger, printed in the CONSTITUTION yesterday, shows that colored men of intelligence have a clear understanding of the situation—a clearer understanding, perhaps, all things considered, than either the editor of the Cincinnati Commercial Gazette, or the editor of the Indianapolis Journal. Pledger is as rampant a republican as either of these rampant editors, but he knows that if democratic rule is calculated to benefit the whites, it will also benefit the blacks.

As a matter of fact, he rather underestimates the advantages which will accrue to the negroes under a democratic administration. It is impossible to conceive an event better calculated to blot out the color line at the south than the election of a democratic president. Heretofore the republican party has assumed the right to take charge of the negroes and to provide for their future. It took upon itself the extraordinary responsibility of compelling the southern whites to do thus and so in accordance with a programme at once humiliating and proscriptive. The result was that the southern people, while understanding the needs of the colored people and sympathizing thoroughly with his condition, were driven into taking the attitude of spectators—an attitude that was made more emphatic by the evident distrust of the negroes themselves. It is not too much to say that whatever abuse or ill-treatment the negroes have been subjected to may be traced directly to a spirit of ignorant but indignant protest against the arrogant assumption by the republican party of the right to control and direct the social as well as the political affairs of the southern white. They are most prudent, the wisest, the safest? Whether all this is all that can be done—no matter what their personal affiliations may be.

Well, here are the two tickets! We print them in parallel columns. Look at them. You know the men on each ticket. Take them one by one and study them. Select the best men just as if you were selecting men to manage your own private business. Do this without passion or excitement, or prejudice. Do it quietly in your own home, where you are not disturbed by the plea of the political or the rabble of the crowd. "Here they are:

Citizens' Ticket. People's Ticket.

For Mayor.

Rubert Arnold.

For Alderman.

J. T. Cooper.

J. R. Granfitt.

J. A. Anderson.

For Councilman.

J. W. Hutchison.

W. M. Middlebrook.

Second Ward.

J. W. Alexander.

Third Ward.

D. A. Beattie.

Fourth Ward.

Mastin Bridwell.

E. F. May.

Fifth Ward.

J. W. McPaul.

Z. A. Rice.

Sixth Ward.

J. C. Kirkpatrick.

There are two things to be considered in making your selection:

First, nothing ought to be considered except the actual qualification of the candidates. Objection is made to the citizen's ticket because it is said there is no working-man on it. There is not a man on the citizen ticket that is not a self-made man. If they have done well they naturally know how to help and want to help other laboring men along too. To say that when a working man succeeds in life shall have the effect to kill him off, would be to destroy the ambition of all laboring men. But the objection is absurd any way. The Joes

there is no Jew on it, or the lawyers because there is no lawyer on it, or the insurance man because there is no insurance man on it. The working men have no interest except to see the city honestly and wisely managed. They have no interest that every other citizen does not have.

If a mechanic wanted six men to manage an important business operation for him, he would select the best six men he could find, and he wouldn't care whether they were Jew or Gentile, Irish or German, rich poor, capitalist or laborer. He'd select them for their capacity to do what he wanted done, and for nothing else.

To show that the citizens committee had no thought of excluding the workingmen a place on their ticket was tendered to at least three workingmen but they declined. The ticket was made up without reference to class or condition, but solely with reference to the fitness of the men selected for the work they are to do.

Secondly. Honesty is not the only qualification needed in the men for this crisis. There must also be business experience, ability, prudence, conservatism, wisdom. Atlanta is a great city. Her affairs are complex and require thoughtful and patient study. Her future is projected on a grand scale. A very good rule for selecting men to manage their affairs is to select the men who have managed their own affairs successfully. Those who have built up a competency for themselves by slow, patient work, and who have proven their ability, and sagacity, in the management of their own estate will not be apt to make mistakes with the affairs of the city. Such issues should not be raised from mere interested motives. Our people are united and harmonious, and look with anything but favor on a effort to array one class against another.

New here is the issue fairly presented. We believe that the citizen's ticket, headed by Judge Hillyer, ought to be elected. In our opinion the bringing of so wise and safe and able a man as Judge Hillyer to the mayoralty and backing him up with such a council as runs with him, will advance the value of every piece of real estate in Atlanta 25 per cent. This is our opinion. Let every man judge for himself. The tickets are before you. You know the record of the men who are running. You know the men themselves. The issue is a simple one. It purely insists that the people of the south are murderers and assassins, but declare that Cincinnati merchants who are cowardly enough to believe otherwise are no better than murderers and assassins themselves. Hurrah for Editor Hallstead!

The skeleton of an alleged mastodon has been discovered in Massachusetts. It is probably the remains of Blaine's Butler.

DADDY BLAINE's Hocking Valley mines are still in trouble. But this is probably due to the fact that the solid south voted the democratic ticket.

Editor Hallstead kids like a mule. He not only insists that the people of the south are murderers and assassins, but declare that Cincinnati merchants who are cowardly enough to believe otherwise are no better than murderers and assassins themselves. Hurrah for Editor Hallstead!

New York Herald advises Mr. Henry George in very plain terms to mind his own business. At a time when the people of Ireland and Scotland are excited and discontented it can do them no good and may result in much harm for an American to agitate them. The evidence of stockpiling in a dry goods store. The evidence of a large number of men employed in a factory nature. Scores of witnesses testified to her good character. The judge declined to change the jury, and a verdict of guilty was rendered. The prisoner was given a few days by the court to arrange his affairs so that his business interests would not suffer during her confinement. It is a sad case, and it is impossible to explain such depravity in one whose wealth was sufficient to place her above ordinary temptations.

A gas well has been discovered in Ohio. It marks the spot where Daddy Blaine made the greatest effort of his life.

BUTLER has evidently mashed the greenback party. He is a very heavy load to carry.

The discussion of the alleged poisonous properties of canned goods has drawn out a communication from Dr. Thomas Stevenson, London. The doctor says that no positive case of acute metal poisoning by canned goods is known in London. Where persons have been poisoned by eating canned meat it is believed that the meat was tainted before it was canned. Dr. Irwin, of New York, who has been engaged by the manufacturer of the product to test its own canning process, has found no evidence of any metal in the cans.

REUBEN STEPHENS, of Connecticut, was taken up his residence at Oxford, England, when relieved of his duties as minister. It is to be hoped that Mr. Lowell will be sent, in due time, to represent Great Britain's interests at Washington by giving full play to his English abilities.

The supreme court of Iowa has decided that reading the Bible and singing sacred songs in the common schools are not prohibited by the clause in the state constitution forbidding a levy of taxes to support places of worship. While admitting that such exercises in schoolhouses in a certain sense worship, the court denies that they add anything to the burden of taxation.

KEEP ON THE TRAMP.
A of Them Kept Straight by a Single Dog.

Amelia Island American.
One drove of sheep went swimming, and brought out Newark a few days away to Philadelphia. They seemed over one another, bumped together until it seemed as though some must brood under the feet of the others. Walking country-tramped ahead in of the road and the sheep followed the sound as dusty, ill-humored and out sheep themselves. In the rear a man tramped along, with a long stick in his hand. At every new step he regular cry, and whenever the sheep had touched them up with his hickory stick, and bringing up the tail and bared dog, was ready now to eat and apparently paid little attention.

But when two of the sheep got separated from the flock, he gathered them back in line in no time forced them into the fold, and then again under. At last one of the negroes, Thomas Lewis, jumped in and saved him. His first words, when he had become quiet on the bank, were: "I am here to see me." He was nearly eight years of age.

A narrow Escape.
Macon, November 22.—[Special]—A terrible accident was arrested to-day by the coolness of the gentleman who was so near danger. Mr. Alex. Stephens was mounted on his horse crossing Fifth street below the car shed. The Columbus train was going out, and at the same time the Estancia train was coming in. Mr. Stephens did not see the latter train until a few moments before it struck him, and he heard the train a mile off. He turned his horse and rode him to safety, saving himself from being run over.

He turned his horse and bringing up the tail and bared dog, was ready now to eat and apparently paid little attention.

The Operetta "Bo Peep."
Macon, November 22.—[Special]—One of the most pleasing social events ever given in Macon, will be that of the charming operetta "Bo Peep" by the pupils of Professor West, at an early date.

The operetta is complete, with many bright scenes, and the manager has arranged for a grand ball to be held in the room of the judge of the superior court count the ballots. The crowd dispersed.

The Negro Minstrels of Nassau.
The New York Sun.

The Negro Minstrels of Nassau, their capital, is a small town beyond where Nassau ends, and is a most interesting collection of wooden houses without fireplaces or chimneys, with red yucca leaf roofs, and no glasses or in the windows. These houses peep out the white roadside from a beautiful colony of palms, flowers and tropic trees, and black and white children abound in such numbers that each child as Nassau could not provide work for all of them. A pretty little colored girl sat a baby on her knee when the six-knot string of beads was passed around her neck. She looked like an infant orangutan, but the girl, to the girl, said: "That baby is too good to be yours." He did not suppose it was his, but the other girl, who was in a mind miser, said the girl: "It's my mother."

General Mention.
Macon, November 22.—Hon. Charles J. Harris has resumed the practice of law again. For a number of years he was a prominent member of the Macon bar and was compelled to give up account of ill health.

Mr. Lee Stevens, of the firm of Williams & Stevens, left yesterday to spend a few days with his Atlanta friends.

To Prevent Law Suits in Land Affairs.
The following is from an old copy of "The South Carolina and Georgia Almanac for the year of Our Lord 1765":

First see the land which thou intendest to buy, within the seller's title clear does lie; And that no woman has done lay claim. That no man has any right or title of name. That may it cumber. Know if bound or free. The tenure stands, and that from each feefoe. Then stand the boundaries, and that the land lies. Take a field there that is nothing but a solid mass of coral rock and limestone, and if let alone would be fit for nothing but a stone wall. Then see of vegetation that no man could tell whether the bottom of it was sand or clay, or gravel, or rock, or stones, or stones, or stones. Then see if there is any soil, and if there is, then let it be plowed, and if not, then let it be sown with a threeding machine, never listened to the manuring of a look or watched the flow of a river. Then see if there is any soil, and if there is, then raise it high enough to make it worth while for one to plant, and when it is raised, then let it be sown with a threeding machine, never listened to the manuring of a look or watched the flow of a river. Then see if there is any soil, and if there is, then raise it high enough to make it worth while for one to plant, and when it is raised, then let it be sown with a threeding machine, never listened to the manuring of a look or watched the flow of a river. ATLANTA'S ELECTION DAY.

WE ARE MISREPRESENTED BY SLANDERS IN OUR MIDST.

The following clipping from the Wilkesbarre, Pa., Record of the Tin appears in that paper under the caption "Election Day in Atlanta," and was forwarded by a citizen of Wilkesbarre to Dr. J. Knott, of this city, with the request to state whether the allegations in the article were true or false.

Dear Sirs—Smith has received an interesting letter from a young man formerly a Wilkesbarrean, and we give it from a few extracts:

"I am not with you on election day I want down to the polls and waited for the poor darkies got cheated out of their vote. It is the biggest kind of a fraud I ever saw. Then I had to jump in the mud and water to get out of the mud and stood on each side and bulldozed them and pushed them—anything to kick up a row. Then the white women would come along and lockup before they had time to vote. I do not blame the negroes for not voting, it is as much as the life is worth. When the returns came in it looks like we lost. We then had to go to the denots took two red shirts and burned them and caught the darkies and put them up and sold them off to the white men for \$100.00 apiece. To death. As the returns seemed so positive for the democrats, they began to gather by hundreds, carrying rebel flags and banners. The bands ran and whistles blew. business houses shut down and turned out with the mob. The negroes ran every way to avoid them. Tols was up and down. It was a terrible scene. A roommate was brought in nearly dead, he is a democrat, and cut off some black man's ears and the negroes were beaten. We then had to keep the cars for a ride. All of us kept our mouths shut. They expect to get pay for all the slaves and such, and say it is all right. This seat will be held down. It is all right down here."

Mr. Knott was considerably surprised at being called upon to deny charges which are so utterly absurd and without foundation, but he lost no time in writing the Wilkesbarre gentlemen a true account of the state of affairs here. To Georgians and southern democrats such letters as the above seem to bear on their face and between the lines unmistakable evidence of their falsehood and malicious character, but there are many honest and well-meaning people by them. Possibly some of these letters are written by disappointed carpet-baggers, but most of them are probably manufactured in the offices of the slanderous sheets in which they are published.

Some of the letters are ingeniously written, and contain a few facts but the one published above is a curiosity for the reason that there is not a solitary grain of truth in it. From beginning to end it is packed with more lies to the square inch than were ever before compressed into the same space.

A COLORED MAN'S FUNERAL.

The Funeral of John M. Pinckney at St. Philip's Church.

Yesterday quite an interesting event occurred at St. Philip's church. It was the funeral services of John M. Pinckney, a venerable colored man, who has been for a number of years a regular communicant of the church. He was a member of the strictest Christians, and when not sick was seldom out of his pew during the services, and many a time has been seen to enter along with the white members, prayer-book in hand, quietly take his seat and pay the strictest attention, mingling his voice with the responses of the white people who filled the church. For some time he has been missed from his accustomed place in the house of worship. Thursday night he died, and yesterday morning's constitution contained the announcement that his funeral would occur at 10 o'clock. At that hour there was a great attendance of the colored people, and a quiet, simple and impressive and interesting service was conducted by Dr. Armstrong, assisted by Mr. Hunt, after which the remains were interred in the cemetery.

John M. Pinckney was an especially worthy colored citizen, industrious, courteous and respectful to all. He never allowed himself obnoxious or disagreeable conduct, and was always a seat with the congregation at St. Philip's. He was once a tailor and his health failed, compelling him to give up that business and open a shop. He had many friends in Atlanta, who will regret to learn of his death. He is said to have been a body servant of John C. Calhoun.

Mr. R. A. E. Cummings.

A large number of friends attended the funeral services of the late R. A. E. Cummings at St. Luke's cathedral yesterday afternoon at 4 o'clock. Messrs. Thomas Paine, R. W. Root, J. T. Brock, Charles Currier, J. W. McElroy, E. T. Lane, Jr., Isham Dan, and Jack Harris were present. The funeral services were conducted by Dr. C. M. Beckwith. The remains were taken to Marietta on the 4 o'clock train, accompanied by the family and a number of friends. They were at the station and escorted home by a large number of Marietta people. That city was formerly the home of Dr. Cummings, and his son was buried in the cemetery where several of his relatives rest.

SOCIAL GOSSIP.

THE FEATURES OF THE WEEK CHRONICLED.

Entertaining Our Company.—The Movement of Our People Abroad.—Marriage and Given in Marriage.—Topics of Interest to Our Lady Readers.—Theatrical Matters, Etc.

The past week has been one, perhaps, of more interest, socially, than any of the present season. There were two receptions and entertainments of more than ordinary interest and brilliancy. All who participated seemed very happy in the enjoyment of these social pleasures, and everything bore evidence that the closing days of the year were to be the liveliest.

The prize drill and hop at the Gate City armory Tuesday night was well attended, and it's unnecessary to say that everything was in strict accord with whatever they undertake, even to their entertainments, insuring success.

There were a large number of callers at the reception of Governor McDaniel and his most estimable lady, Wednesday night, and all improved the opportunity for pleasure. The mansion, exceptionally well calculated for entertaining as it is, was handsomely adorned.

The governor is not only proving a most excellent and popular executive, but is equally admired in social life. Governor McDonald and wife, and accomplished daughter, were exceedingly hospitable, and gave pleasant evidence in the arts of entertaining, for every guest received such personal attention and such courtesies, which gave to all the ease and enjoyment of the "at home" feeling in their government residence.

The full dress reception of the Capitol City club at their refined and elegant club house Thursday night, reflected great credit upon their management. The club house is an ornament to Peachtree, and the members of the club a credit to the city. The pleasures and enjoyments of Thursday evening were a compliment to the club, which each individual member richly merited. A very prominent and pronounced social event was the entertainment "given by Senator and Mrs. Brown, at Concordia hall, Thursday evening. The beauty, chivalry and talent collected there, the elegant costumes and beautiful carriage and street dresses worn; a supper which was an elaborate affair and beautifully served. These with the genial manners and many courtesies naturally and delicately manifested by the senator and his lady, caused all who were present to go away with the feeling of having spent a most delightful evening, and that the host and hostess were really friends.

The Cleveland masquerade ball at Concordia hall Friday night was as highly enjoyable as it was enthusiastic.

There were several entertainments by Mr. McCauley, also by Miss Olcott, at the opera house during the week.

Mention should have been made of the meeting of the star club, at Dr. Armstrong's. These meetings are highly attractive, and will prove beneficial to young society people in the city.

Two or three quiet weddings, a few small dinners, the opening of the Gate City skating rink, with other entertainments, made the week lively and attractive to society people.

Grand Ball.

The "Young Men's Social Club" of Tombooboo, have perfect arrangements for a ball to be given at Tombooboo, on the evening of the 10th of December, and expect to have a large attendance of young men of much enjoyment.

Loot Year.

A young gentleman of this city says that the Atlanta girl's have not only been pronounced in their determination not to take advantage of last year's election, but are determined to be as good as they can be in this year's election, and will not be afraid to listen to addresses, during the year he has been in love with three different ones and each one has been a good friend to him. He is now in love with the third, and the statute of limitations will soon run on their love.

Styles of Stationery.

In sealing a letter it is not fashionable to use the monogram. The revival of sealing wax led to the invention of pretty little封口蜡, which are now adjusted to a handsome desk or writing-table.

In monograms script is used, and there is an attempt to puzzle the meaning of letters. This simple marking is in good taste.

Fragrant Flowers.

Stephanotis, fragrant white flower, is put in small bunches.

Yellow chrysanthemums are much worn in New York before Christmas.

Little brown straw jugs are filled with roses and tied with ribbons.

Handfuls of violets are worn above the elbow with evening dresses.

Putting a natural rose on the toe of house slippers is now in style with some.

Varieties of Sleeves.

A pretty pluffed sleeve is lined on ball and party dresses.

News from Paris is to the effect that no tight fitting sleeves are to be the fashion.

For short sleeves those which come to the elbow are to be worn dinner and reception dresses.

Half open sleeves are more elegant for all enterments and have superseded the tight fitting, close sleeves.

Church Chat.

Many of the Atlanta churches are paying more attention to their music than ever.

High and low church choirs are breaking out in England, and the contest promises to be exciting.

In some of the older cities are not rung on Sunday. The ringing of church bells in France is restricted.

There are but few cities the size of Atlanta where so few of the citizens care to attend private services.

Two London parsons were fined a shilling each for the rapier or scabbard for persons going to church in the morning.

"At church in Mexico the men stand, but the women kneel. Bonnets are not allowed. The women sit at the back of each other's shoulders near the entrance.

Fashion's Fancies.

It takes fifteen gallons of perfume a year to supply the hamper-holders of Europeans and British ladies.

The rarest and most expensive stockings are those of the Brussels lace. They are made to fit the back with silk threads.

Legs bent at this year's balls are hand-knitted, and are laid out at the back with silk threads.
